ROUN·G

HYDROPONICS

Fresh Green Happiness!

LED for plants

• Homes • Cafes • Restaurants • Schools
• Kindergardens • Hospitals

MX-650
655*470*440mm(W*L*H)

MX-850
855*470*440mm(W*L*H)

Features

Main Functions
* Automatic water temperature control
* Ventilation fan for air circulation
* Eco-friendly LED artificial light source minimises power consumption
* 3 levels of brightness.
* Alarm alerts time to supply nutrients
* LED for most suitable plant growth and increased efficiency of the light source by applying LED lens cap
* Rapid plant growth and high energy efficiency as the greenhouse effect in the form of vinyl house
* Blocking external contamination, equipped with rotating door and tunnel type cage
* Water circulation pump and oxygen supply devices for supply of nutrients to the roots

Features
* Eco-friendly interiors reflects the beauty of nature in homes, cafes, restaurants, coffeeshops and hospitals with luxurious pink light
* Safer vegetables free from soil pollution, pests, pesticides, etc.
* Maintain a pleasant indoor environment by air purification and maintaining proper humidity
* Experience the learning farm in homes, schools and kindergartens
* Best features, best performance and high-quality design of the luxurious hydroponic system
